7 Qualities of a Collaborative Culture™ in Healthcare

Training | Consultation

Given the interdependency and complexity of healthcare, it's no longer enough to just focus on improving the patient experience. Building a collaborative culture is the only way to become and sustain being both a Provider and Employer of Choice. There are many moving parts to such a dynamic, constantly changing culture. This organization-wide process makes a significant impact on patient satisfaction, employee engagement, leadership effectiveness and accountability. All of which improves not only employee retention, patient loyalty and the bottom line, but fuels a powerful competitive advantage in today's marketplace.

Objectives

This dynamic annual improvement process is designed to educate and equip healthcare organizations to develop or enhance a collaborative culture of excellence in which:

- Leaders have a clear understanding of the organization's strategic focus.
- Employees are actively involved and committed to the success of the organization.
- Departments/teams are cohesive, efficient, synergistic and aligned.

Format

Collaborative Culture Assessment™ – identifies how your talent currently does the job, feels about the company and offers suggestions for making a difference in the workplace.

Leadership Development Series™ – provides all leaders and managers the essential skills to engage and inspire today's workforce.

Excellence in the Workplace Series™ – experiential learning for all employees to develop the confidence, courage and consistency to always exceed patient expectations.

Collaborative Culture Series™ – joint training with leadership and employees, ideally as teams to strengthen trust, commitment, accountability and resolve conflict.
